

NEW!

SpectrumU Streaming Service (formerly Wofford Cable TV Service) **AVAILABLE NOW!**

Wofford College now provides TV content delivery service through the SpectrumU streaming service. Coax cable TV connections are no longer available in residence halls. The service is available to all current students.

Devices must be connected to the Wofford network (wired port, Terrier WiFi or Terrier_Devices WiFi) in order to receive all TV networks and support multiple streaming devices.

How to access on a computer

Open a web browser and navigate to watch.spectrumutv.com.

How to access a mobile device or a Smart TV or media player device

Install the SpectrumU TV app available from your device's App Store.

How to authenticate to the SpectrumU service

This service requires users to authenticate to verify their association with Wofford College.

1. On the Spectrum login screen, look below the blue "Sign In" button and find the link to "Sign in to SpectrumU".
2. Enter **wofford.edu** in the School Domain field.
3. Enter your Wofford email address and Wofford password. Then complete the multi-factor authentication steps as you normally would.
4. For Smart TVs and media player devices, a code will be displayed on the screen that must be used to link the device to the user's authentication on a computer or mobile device.

How to authenticate to a specific TV network's application or page

The SpectrumU service gives users access to the apps and pages associated with the TV networks included in the service's channel line-up. On those apps:

1. Find the link to select or link to a TV provider.
2. Select Spectrum as the provider.
3. Follow the instructions above to authenticate to the service.

Frequently asked questions

Q: Can I access SpectrumU while off campus?

A: Yes! Wofford students can connect to SpectrumU on multiple devices simultaneously while using campus WiFi. When off campus or not connected to campus WiFi, connections are limited to one.

Q: Do I need to use a coax cable?

A: No. All coax cables have been removed to provide access.

Q: Can I use my Roku/Apple TV?

A: Yes! You can download the app to your device. Compatible devices may screencast from a phone.
